SHRIDA UDYOG

COMPANY PROFILE

Shrida Udyog, an ISO 9001 : 2008 Certified Company was established in 1991 with the goal of providing its customers with the best possible quality of locks and builder's hardware in the Indian market. The company has worked hard for more than two decades to outstand the demands of the valuable customers.

Shrida Udyog has a state-of-the-art complex equipped with an in-house team along with the Polish machines, Lancer, Milling machines, Power presses, Taping and Drill machines, Lathe etc. along with conventional machinery to support it, thereby producing value added products. Our vision & mission includes achieving international standards of excellence with a focus on customer satisfaction inspired by the spirit of globalization.

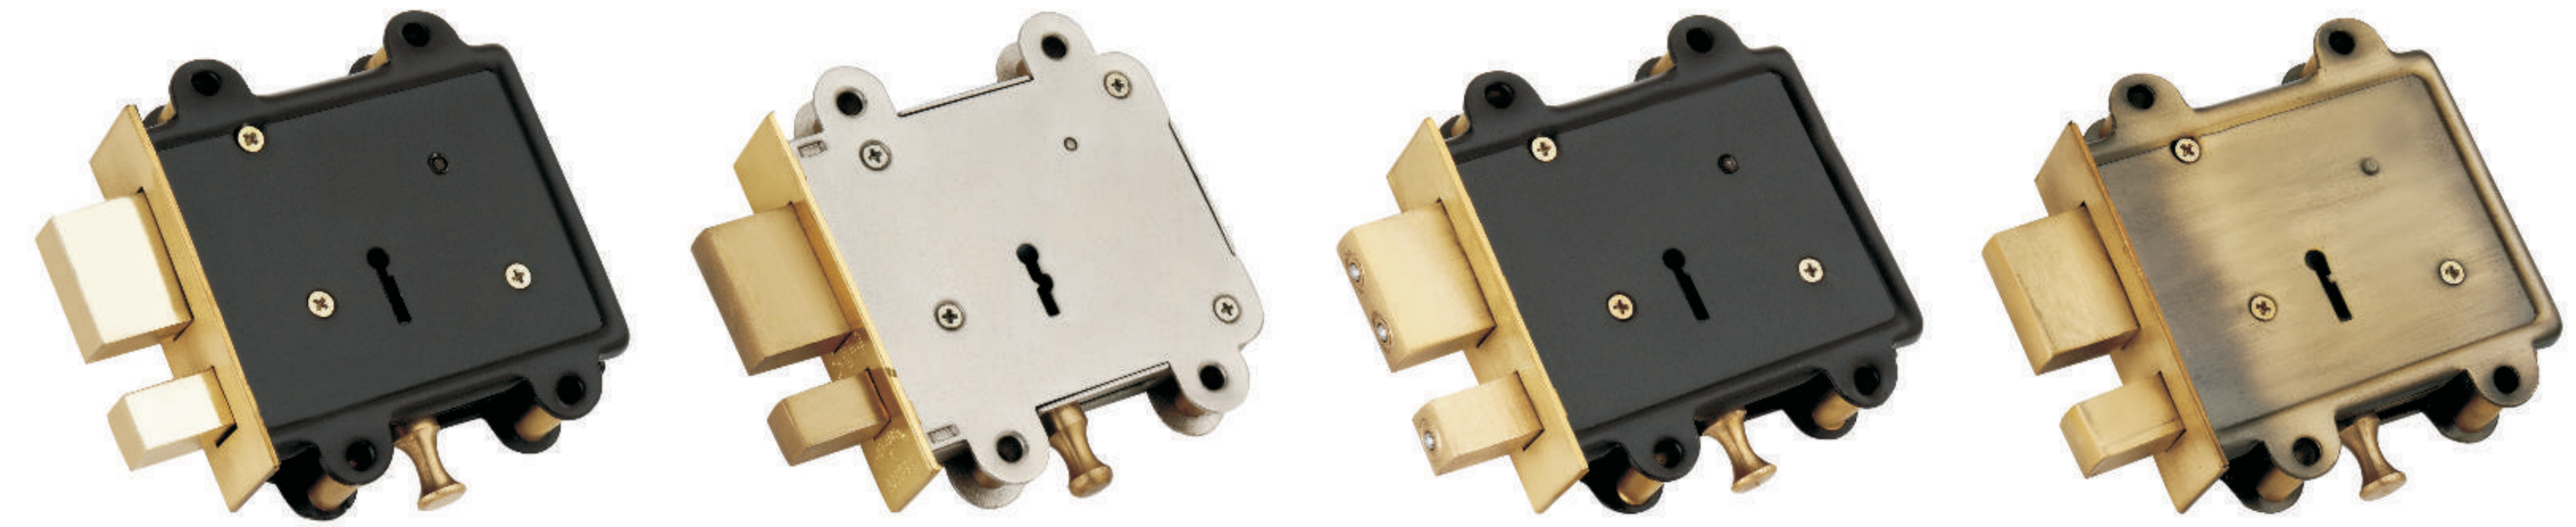

Shrida Udyog offers its customers an extensive range of products generated out of Virgin Brass, Zinc Alloy, Graded Stainless Steel and cold rolled Iron Coil using forging machines, power presses, semi-automatic polish machines and in-house lacquer plant besides many other facilities in order to meet with agreed schedules.

The company has an in-house production facilities situated at Madhuvan Vihar, Near Barolla Flyover, Aligarh which are duly supported by in-house product development team. The comprehensive QA System helps adherence to standards and stringent guidelines. The quality control mechanisms are meticulously adhered to at every stage, right from procurement of raw material to shipment of each consignment is passed through a stringent quality control check before despatch.
